Population plays an important role as well; policing rural areas and villages vastly differs from policing large cities. Foremost among the factors that determine a country’s system of policing, however, are the political culture of the society—e.g., whether it is open and democratic or closed and totalitarian—and the state’s conception

The development of policing in the United States closely followed the development of policing in England. In the early colonies policing took two forms. It was both informal and communal, which is referred to as the "Watch," or private-for-profit policing, which is called "The Big Stick" (Spitzer, 1979).

At the same time that the lieutenant general of police was trying to maintain public order in Paris, the reactive and inefficient urban policing system of England, in which nearly unpaid public constables had to rely on private, stipendiary thief-takers to maintain an appearance of law and order, was falling apart.
